“Cabezudos”

Cabezudos is known today as an abandoned village, however, it hasn't always been like that. Once it was a happy and living place full of families but, little by little, it became a ghost village where nobody lived.

People say that strange things can be found in Cabezudos. Like odd symbols, doll's heads on spikes, eerie sounds and even an entity where there shouldn't be anyone.

Not only this photo but the whole place makes me feel weird, with a feeling of uneasiness as if, somehow, someone was watching me through the broken windows or the rotten wooden doors.
